

For those who are living in ASIA you can now watch ACQKBN for FREE.

You should have an existing DECODER box, sometimes called Satellite Receiver and an antenna looking up at APSTAR V. Then, enter the following channel parameters into your decoder box.

**APSTAR V (TELSTAR 18)**

**Receiver settings:**

Satellite Orbital Position: 138°E

Symbol Rate: 2200 Ksps / 2.2 Msps

Channel Freq: 3837 Mhz

Polarization: Horizontal

FEC:  $\frac{3}{4}$

Encryption: FREE-To-AIR.

**AGILA 2 (ABS 5)**

**Receiver settings:**

Satellite Orbital Position: 146 °E

Symbol Rate: 2200 Ksps / 2.2 Msps

Channel Freq: 3877 Mhz

Polarization: Vertical

FEC:  $\frac{3}{4}$

Encryption: FREE-To-AIR.
